Training

Agriculture

San Pedro · Côte d'Ivoire

A multi-sector consulting and expertise firm.

We help companies and institutions control risks, achieve compliance, build skills and improve the performance of their operations.

From diagnosis to implementation, our approach combines analysis, inspection, training and operational support, tailored to each organisation's needs.

2015

Firm founded in San Pedro

20+

years of senior management experience

WE WORK FOR

Companies and industries

Port and logistics operators

Public institutions

Development organisations

Our vision

A high-performing organisation relies on skilled teams, a sound system and responsible management.

Our commitments

Confidentiality, timeliness and technical rigour on every mission.

Our approach

Listen, understand your context, set priorities with you and bring in the right skills.

Our ambition: turning your challenges into practical solutions, and your projects into drivers of sustainable development.

Aboubakar TRAORE

Managing Director

Engineer and quality specialist

An Ivorian firm with an African and international outlook, SCHAM'S CONSULTING combines a close understanding of local realities with an open view of the world. Every project has its own story, constraints and goals: listening and dialogue are at the heart of our approach.

My commitment is to foster a culture of rigour, integrity and responsibility. Beyond recommendations, we favour realistic proposals, clear objectives and constant attention to results.

Together, let us give your ambitions a clear direction and the means to succeed.

One standard, five areas of expertise.

Our advisory, inspection and training services address the challenges of companies, institutions, logistics operations and value chains.

01 / 05

Studies, advisory & project steering

Informing decisions, structuring projects.

02 / 05

Quality, compliance & sustainability

03 / 05

Maritime, port & stock inspection

04 / 05

Professional training

Building skills at every level.

05 / 05

Agriculture & value chains

Strengthening actors, organising value chains.

01

01 / 05 · STUDIES & ADVISORY

Studies, advisory & project steering

Informing decisions, structuring projects.

Diagnostics, mapping and sector studies: we analyse needs and bring stakeholders together to build realistic action plans, then follow their implementation.

WHAT WE DO

- ✓ Diagnostics and mapping
- ✓ Sector studies and business plans
- ✓ Manuals and terms of reference
- ✓ Project monitoring and evaluation
- ✓ Stakeholder consultation and action plans

Consortium lead

on a World Bank-funded project

MISSIONS ENTRUSTED TO US

PDC2V · World Bank

2025

National catalogue of plant species and varieties: baseline, variety sheets, print and digital editions, web and mobile access. Lead of the SCHAM'S LTD & GLOBUX TECHNOLOGY consortium.

Away4Africa for the CCA

June – Nov. 2024

Strategic study on cashew lot-building: report, recommendations and pilot implementation plan.

02

02 / 05 · QUALITY & COMPLIANCE

Quality, compliance & sustainability

Better control of risks and requirements.

Inspections, audits and procedures, quality management and food safety: we help organisations meet the requirements of their markets, their customers and regulators.

WHAT WE DO

- ✓ Quality controls, audits and procedures
- ✓ ISO 9001 management and HACCP
- ✓ Food safety and pest management
- ✓ Testing through partner laboratories
- ✓ CSR, carbon footprint and EUDR traceability

MISSIONS ENTRUSTED TO US

BBC & Partners

Ouagadougou · 2021 – 2023

Coaching of the quality management system and ISO 9001 training.

CBATP

San Pedro · 2019 – 2021

Quality support for a construction company working towards ISO 9001 certification.

Univiers DYA

Abidjan · 2019 – 2024

Food safety risk control and assessment within a HACCP approach.

Cotton and Cashew Council

Abidjan, San Pedro, Bouaké · 2022

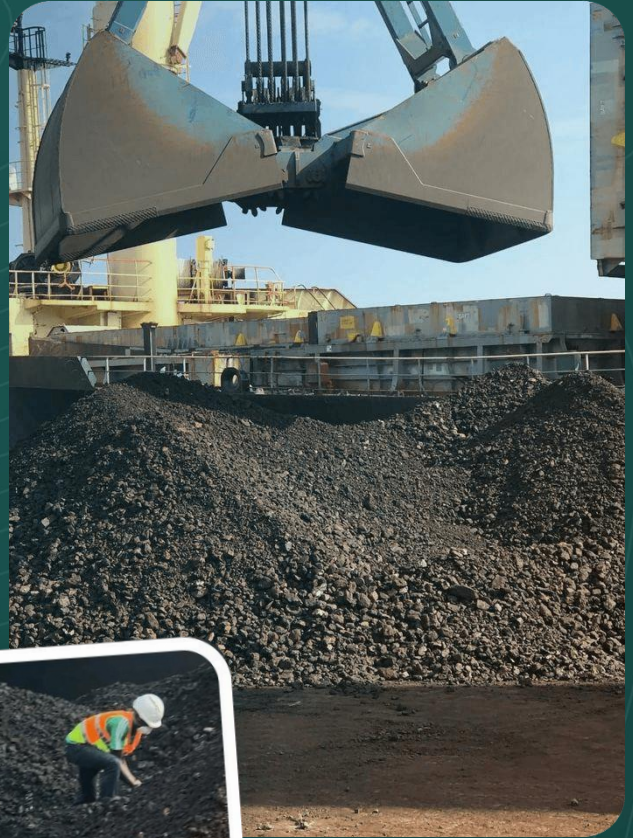

Diagnostic and phytosanitary procedures for raw cashew nut exports.

Our support missions do not constitute a statement that clients obtained certification.

Maritime, port & stock inspection

Securing the tracking of goods and flows.

At the port, in warehouses and in mills, our inspectors follow the goods: loading and discharge, draft surveys, receptions, weighing, sampling, milling and deliveries, with documented findings.

WHAT WE DO

- ✓ Cargo and container inspection
- ✓ Loading and discharge supervision
- ✓ Draft survey
- ✓ Supervision of loading, weighing and sampling
- ✓ Stock control and monitoring (Stock Monitoring Agreement)
- ✓ Damage surveys and joint surveys

MISSIONS ENTRUSTED TO US

TARA Groupe Agro-Industrie

Yamoussoukro · 2024 – 2026

Paddy rice stock monitoring: receptions, weighing, quality, milling, bagging, deliveries and shrinkage.

CAPI

Daloa · 2023 and 2025

Monitoring and supervision of stocks and milling: two separate certified missions.

Grain d'Avenir

Guiglo · 2024

Tracking of receptions, storage and deliveries of paddy and milled rice.

Cotton, Cashew and Shea Council

Since February 2025

Monitoring of quality controls on cashew stocks and unannounced counter-checks.

04

04 / 05 · TRAINING

Professional training

Building skills at every level.

Tailor-made training, in the classroom and in the field, for managers, teams, cooperatives and field relays: methods everyone can apply the next day.

WHAT WE DO

- ✓ Management, leadership and governance
- ✓ Entrepreneurship, business and cooperative management
- ✓ Quality and food safety
- ✓ Sector-specific techniques
- ✓ Train-the-trainer programmes

163

field relays trained in 2017 for
GIZ / PROFIAB

MISSIONS ENTRUSTED TO US

GIZ / PROFIAB

Taï area · 2017 and 2019
